

# WHY GRANDEUR FOR YOUR LARGE BREED PUPPY?

**Choosing the right food for your large breed puppy is important. During puppy stage the physical cognitive development of your new addition to the family will be met by feeding Grandeur Puppy for Large Breed dogs.**

The needs of the specific development stages are essential. JOCK Grandeur is a Super Premium Dog Food aimed at advancing your dogs' health and wellbeing and enriching their lives and lifestyles as they have enriched ours. By exclusively using quality ingredients, our scientifically researched food is not only delicious but also rich in protein and loaded with essential minerals and vitamins to meet your dog's daily dietary needs. JOCK Grandeur Dog Food is proudly manufactured in South Africa.

We believe that correct nutrition is fundamental to a dog's wellbeing and provides the basis for a healthy, active lifestyle. Combined with the love and attention it receives from you, there's no limit to the adventures that make up your furry friend's own legendary story.

Skeletal development mainly occurs during the first 8 months of a puppy's life. It is therefore crucial to ensure that the correct amount of calcium and energy is consumed during this phase.

## PUPPY

1-8 months

The first 8 months of a puppy's development is crucial for a healthy and happy life. Grandeur Large Breed Puppy is scientifically formulated to give your little (big) pal a legendary and strong start.

**29% PROTEIN**   **13% FAT**   **RICH IN CHICKEN & RICE**

Available in 2kg, 7,5kg and 18kg bags.

## JUNIOR

8-24 months

Grandeur Large Breed Junior contains everything a young large breed dog needs to build muscle mass, grow bones, and provide the energy needed for their daily adventures!

**26% PROTEIN**   **13% FAT**   **RICH IN CHICKEN & RICE**

Available in 18kg bags.

## ADULT

24+ months

Grandeur Large Breed Adult is highly palatable, and is scientifically formulated to give your dog a long, healthy, fun-filled and legendary life.

**24% PROTEIN**   **12% FAT**   **RICH IN CHICKEN & RICE**

Available in 18kg bags.

**JOCK Grandeur Large Breed Puppy is specialised to cater for this sensitive period in their development. The diet supplies adapted calcium levels and correct feeding guidelines.**

JOCK Grandeur Large Breed Puppy contains chondroitin and glucosamine to support joint function. Capsicum and curcumin act as a potent immune booster in this diet.

**Grandeur Junior is specially developed to meet your puppy's needs during the second phase of development – 8 months and older.**

A combination of L-carnitine, DHA, balanced calcium and phosphorus levels help promote healthy growth and development. Digestive health is of utmost importance in the junior growing phase. Grandeur Junior includes a blend of prebiotic fibres and encapsulated fatty acids to ensure a healthy intestinal environment.

**Grandeur Large Breed Adult is specially formulated with the needs of large and giant breed dogs in mind.**

This diet caters for a healthy intestinal tract, as large breed dogs have a smaller digestive tract than smaller breed dogs. Highly digestible ingredients, together with prebiotic fibres and encapsulated fatty acids, ensure a healthy intestinal environment and limit faecal odour.

**UNLEASH YOUR DOG'S  
INNER LEGEND**
